# GETTING TO KNOW CHILDREN'S SPECIALTIES

In 1983, the vision of what is now known nationwide as Children's Specialties, Inc. began in a small garage workshop. Known then as Master's Hand Carpentry, the foundations of Children's Specialties, Inc. were being formed.

David and Phyllis Kendall, founders of Children's Specialties, Inc. began by designing furniture and playground equipment for preschools and backyards. Built upon strong character and lots of hard work, Master's Hand Carpentry took shape and grew. Ten years later, as a result of this growth and a demand from their customers for a larger national influence, Master's Hand Carpentry reorganized its structure, and Children's Specialties, Inc. was officially born.

Today, under the leadership of David and Phyllis's oldest son, Dave and his wife, Jen, Children's Specialties is partnered with the leading commercial manufacturers in indoor/outdoor recreation equipment, site amenities, and custom playground design. Children's Specialties, Inc. has grown from that small garage workshop to multiple offices and projects nationwide.

Time has progressed and many seasons have come and gone, but the heart of Children's Specialties, Inc. still remains the same. Our team has always been about helping people and bringing them together. From the days of our small beginnings to where we are now, that principle has never changed. Our goal at Children's Specialties is to serve our customers with excellence and integrity and exceed their expectations by partnering together to bring them the best products and services available.

In addition, Children's Specialties, Inc. gives a portion of every project's proceeds back into charitable organizations. To date, Children's Specialties has donated over 1.5 million dollars to local ministries, missionaries, orphanages, etc. Our customers can know that when they do business with us, they are also giving back to their communities. This is just one way Children's Specialties desires to bring people together.

## PEOPLE HAPPINESS EXCITEMENT FAMILY CHILDREN

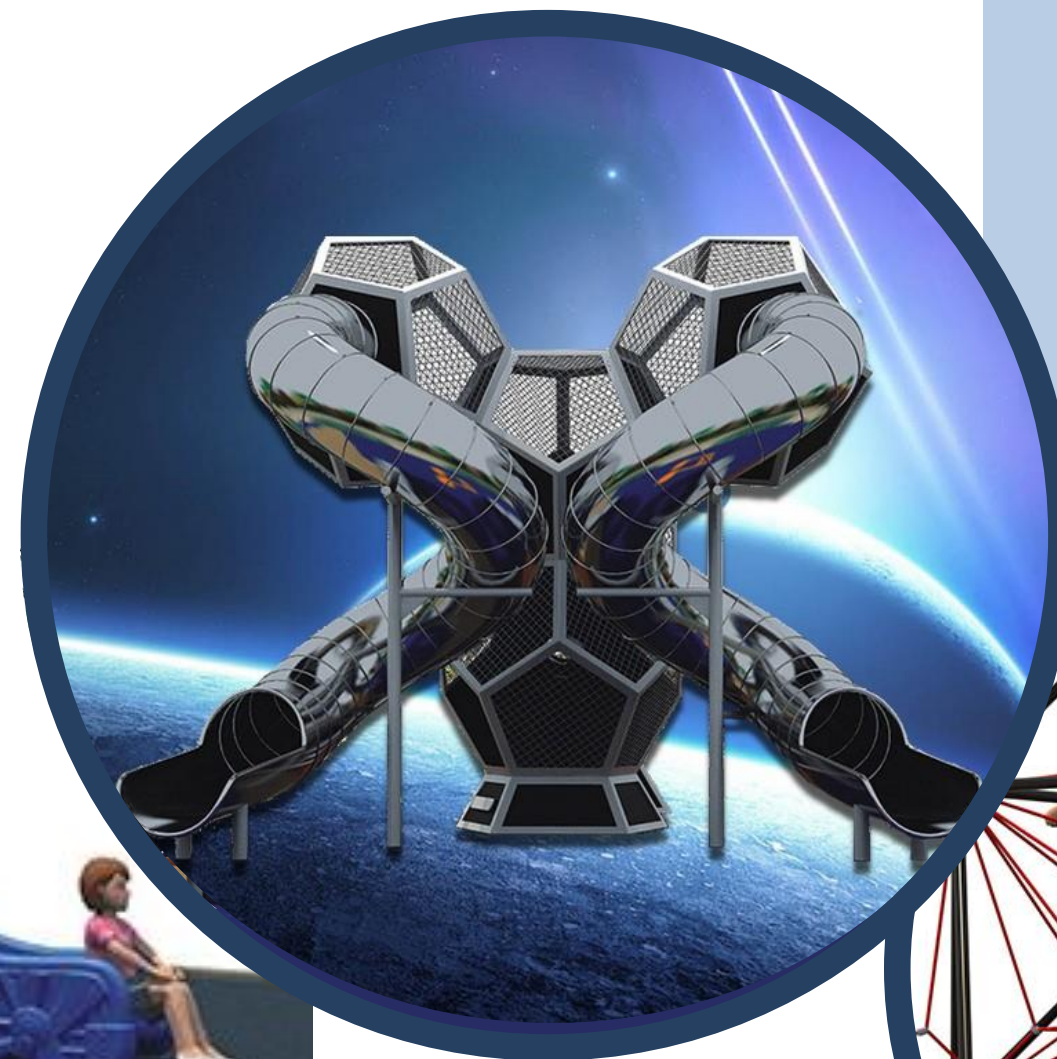

# PLAYGROUNDS

Childhood memories are created at the playground. The opportunity for children to play in a fun, safe environment is instrumental in a child's development. Outdoor play provides children with activities that create healthy social interactions, encouragement of others, and imagination development skills that children will carry with them throughout their lives. For over 30 years, we have been creating perfect custom playgrounds for kids of all ages and abilities. In addition, we have teachers and educators on staff who bring experience and real-world play design to every playground we create. We are excited to assist you on your journey to the perfect playground.

# SPACE SERIES

Explore the farthest reaches of the galaxy and your imagination with our Space Series playgrounds. Command a space station, fly with astronaut friends, or help defend our planet from invaders. Climb aboard and let the Space Series take your kids on a galactic adventure.

# TREEHOUSE SERIES

"Children's Specialties has become our 'go to' provider for all our playground needs. You won't deal with a more knowledgeable, capable, caring, or responsive group of people anywhere in the industry. Our school district has found the way to remove the anxiety from purchasing and installing playground equipment.....We use Children's Specialties!"

*FREDONIA PUBLIC SCHOOLS*

PLAYGROUNDS

Our Nature Series is the natural choice when it comes to planning outdoor play. It combines the adventure and exploration of nature with the durability and safety of high-quality play equipment. Available with 4" x 4" composite upright posts with a galvanized steel inner core, as well as our traditional 5" round upright posts. Here are just a few of the units your kids can use to play ON the outdoors, IN the outdoors!

## NATURE SERIES

## CASTLE SERIES

Our Castle Series units are designed with an attention to detail that ensures active, dramatic play is as vast as the imagination of your children. We can help you create a whole new world for your kids, and these units are just the beginning!

"I cannot thank you enough for the great job your team did at North campus! That is the best playground I have ever seen anywhere! Thank you so much for going above and beyond our expectations!"

*JAMES RIVER CHURCH*

# PIRATE SHIPS

Set sail on a swashbuckling adventure with our new Pirate Ship Series. Complete with a ship's bow, mast and sails, climbers, and plenty of slides, the Pirate Ship Series will bring out the explorer in your kids.

"The playground experience provided by Children's Specialties was terrific from start to finish. We received several innovative designs from which to choose that were unique and appropriate for our space and budget. They worked with us on making this a memorable Eagle Project for my son. He was able to be involved from conception to construction. The completed playground is marvelous. We have over 100 little ones who enjoy playing on it every day. This was the best possible experience imaginable!"

*TRINITY EPISCOPAL CHURCH*

# PLAY HOUSE SERIES

"Service and customer satisfaction is what separates Children's Specialties from other companies. When we started researching our project, there were many questions that needed to be addressed; safety, location, and overall design. After our initial phone call, they were at our school by the end of the week to listen to our needs and wants, and designed a playground that enhanced our school. The kids and community love it!"

*MACKSVILLE SCHOOLS*

*Nexus can be  
connected to  
Minimo AND  
Maximo systems!*

The Nexus Series is a unique way to blend outdoor play with physical development. With imaginative and creative circuit play, it is designed to offer children a challenging and exciting play environment. Manufactured with sturdy 5" posts, the Nexus units make kids forget they're exercising! Take a look at one of our more popular sets...

## NEXUS SERIES

The Maximo Series is our 5" post system. Combining larger decks, a variety of colors and the most imaginative play activities on the market today, this series offers the perfect balance between strength and value. If you're looking for extreme durability, excellent quality, and components to spark the imagination...look no further!

## MAXIMO SERIES

"I just wanted to take a minute and thank you all for the AMAZING work you all did this summer! I appreciate the long, hot days, nights and weekends you all put in to make this happen! I don't think we could have pulled this off with any other playground company. You guys ROCK! I can't thank you enough!!"

*Tulsa Public Schools*

# MINIMO SERIES

Providing the quality you expect, the Minimo Series is the best choice for exceeding play needs in smaller areas and maximizing physical development with an infusion of interactive and age appropriate play components. Below are just a few of the Minimo play units we have designed to create a fun and exciting play environment for your kids! If you are looking for an exceptional 3.5" post system, you've found it here.

We understand that playtime at an early age is essential to every child's development. Our Child Center Series is specifically designed to enhance the growth of pre-school age children. Bright colors, rounded edges and Interactive play components make this series the ideal choice for budding imaginations.

## CHILD CENTERS

## TODDLER TOWN

Our Toddler Town Series is the next step in pre-school age developmental play. Interactive music, cognitive discovery panels, gear spinners and other sensory components enhance the creative learning environment for young children through play.

# INCLUSIVE PLAY

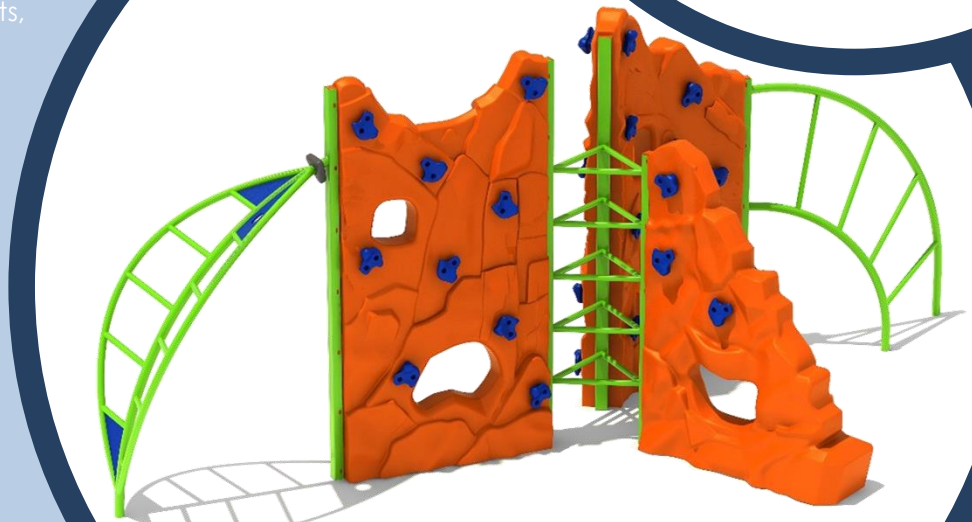

Designing an outdoor play area to meet the needs of all children, is the focus of our inclusive play series. Customized design capabilities utilizing ADA accessible ramps, wheelchair transfer stations, and interactive play components allows us to be fully compliant with ASTM and ADA standards. This series offers every child a fun, safe, and inclusive play environment.

# FREE STANDING PLAY

Enhance the fun and excitement of your play area with our freestanding play equipment! Our expansive selection of musical instruments, climbers, spring toys, swings and more will bring giggles and squeals of delight from children of all ages.

# SAFETY SURFACING

The safety of children is the most important factor in any playground project, and approved safety surfacing is a required element of all Commercial/Public playgrounds. With a variety of certified options available, we can help you select the material that is perfect for your project. It is important to us that we offer only the safest, most reliable and compliant options for YOUR kids.

# ENGINEERED WOOD FIBER

Our Engineered Wood Fiber is a great choice for playground safety and quality. Produced in the United States, Wood Fiber offers excellent fall protection and was the first to meet accessibility standards and certification through IPEMA. With a rigorous quality control program in place, our surfacing goes through continuous testing to ensure it is up to date with the newest industry standards. We have production facilities throughout the country, giving us the ability to offer a budget and eco-friendly option with simple installation and the natural beauty of non-treated American hardwoods.

The safety of your children factors into everything we do. That's why our rubber mulch is made from 100% recycled rubber. At 99.9% steel free, it has been rated the safest on the market for playgrounds. You can be assured that it will not decompose, rot, or absorb water. It is IPEMA Certified and ADA Compliant, providing a clean, color-fast composition and superior safety rating. Our recycled, loose-fill rubber not only protects our children as they play, it also protects the environment they are growing up in.

# LOOSE FILL RUBBER

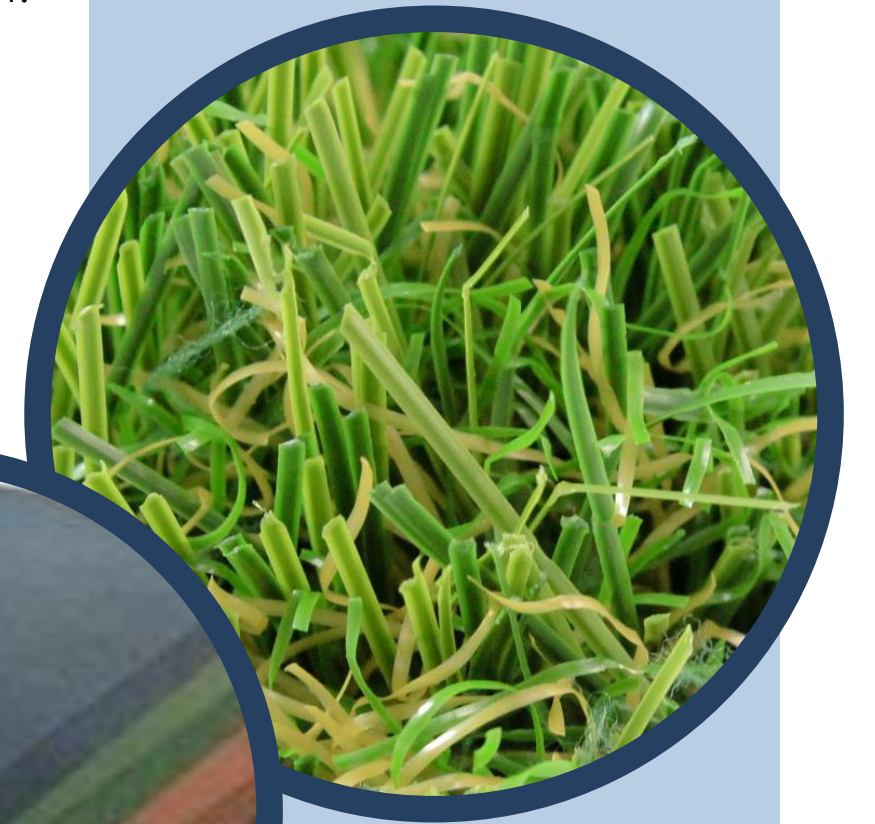

## POURED IN PLACE RUBBER

For a truly impressive safety surfacing, consider Poured-In-Place rubber. This ADA compliant surfacing has specifications that exceed industry standards and is both beautiful and functional. It is maintenance-free and is installed by experienced, certified technicians using up to 95% recycled material. Poured-In-Place rubber provides exceptional fall protection and the semi-porous surface promises a dry surface for your children to play. Available in a variety of colors and endless design options, this is a surface that can be customized to make any playground unique and aesthetically appealing.

Used indoor and outdoor, our high-quality, durable turf selection is top in the industry. Whether it's sports, training centers, landscaping, golf greens or a pet park, our turf offers you the realistic look and feel of grass without all of the nuances. Stay looking green with turf!

## TURF

# SHELTER & SHADE

Nothing enhances a landscape quite like an eye-catching shade, pavilion, or shelter. Families gather for picnics. Children celebrate with birthday parties. Sports teams grill. Receptions honor people we care about. The list is endless, and the memories are waiting.

# SHADE STRUCTURE

"The shade structure looks amazing! It was really great working with you and your crew. Thank you!"  
*UNIVERSITY OF MISSOURI*

***Custom Shades  
Available!***

With an ever-increasing awareness of the harmful result of damaging UV rays, the necessity for shade is growing - and we offer shade solutions for every possible need! Our customers have included parks, playgrounds, schools, car washes, pools, auto dealerships, sports facilities and more! Our selection includes an impressive variety of sizes, design options, colors, etc and we can provide a cost-effective and attractive solution that is both safe and functional.

If you are looking for a shelter structure providing a combination of beauty and quality, look no further! We offer an extensive selection of shelters, and with a Certified Welding Inspector and Quality Manager on staff, they are committed to providing you a superior product! We offer a large variety of options for customization as well, including cupolas, lattice, corner bracing, weathervanes and more.

## STEEL SHELTERS
